

Task 1

Import data into POWER BI It has been Loaded Correctly

The screenshot shows a Microsoft Excel spreadsheet titled "Industrial (Sheet4)". The table contains 53 rows of data for various commodities, each with columns for Price, Day, %, Weekly, Monthly, YTD, YoY, and Date. The commodities listed include Bitumen, Cobalt, Lead, Aluminum, Tin, Zinc, Nickel, Molybdenum, Palladium, Rhodium, Phosphorus, and Polyethylene. The Power BI Data view is visible on the right side of the screen, showing the "Industrial (Sheet4)" dataset selected. The Windows taskbar at the bottom includes icons for search, file, and various applications like Edge, Google Chrome, and File Explorer.

	Price	Day	%	Weekly	Monthly	YTD	YoY	Date
Bitumen	3029	7	-0.0023	-0.0166	-0.0508	-0.1789	-0.1091	01-11-2013
